Education

Sacramento City College

Associates of Science, Design & Digital Media | 2019–2022
GPA: 3.2

Experience

The UPS Store

Graphic Designer & Web Developer

Feb 2022–Present

- Assist in developing and editing design solutions for marketing materials such as packaging, signage, collateral, email, website, print and digital advertising, and promotional materials
- Present multiple solutions per project in a fast-paced environment
- Produce final print and digital artwork, ensuring all creative material is optimized and provided in the correct format for production
- Update and maintain an organized asset management system for photography and graphic design files
- Uphold current and future internal and client brand standards, guidelines, and best practices for consistency across all digital assets
- Stay abreast of all current design/marketing trends for social media, web, and mobile platforms

Flagship Design Studio

UX Design Intern

Aug 2019–Dec. 2019

- Architect, implement, and maintain new and existing interfaces and related systems for their game and/or new projects
- Work with UI/UX Lead, Designers, Artists, and Client/Engine Programmers to create high quality and cutting edge user experiences
- Maintain a clean and optimized UI codebase, ensure consistent coding conventions, and help develop best practices
- Create dynamic and responsive UI that can scale and reflow to suit a variety of resolutions and localized content
- Work with the UI Artists to come up with practical solutions to technical challenges and ensure in-game implementations match mockups and vision
